Mailing facilitates instant communication between Government offices and help maintaining contacts externally, it has turned out to be a major security threat in cyber space. Since the time Internet has been introduced everyone is using Hotmail, MSN Messenger, Yahoo mail and G-mail for free exchange of information through these mail servers. Incidentally these are the kind of e-mail services which are not under users or Government control.

2. Therefore, as per internet & E-Mail policy 2005 (approved by Prime Minister) all users to ensure that email services through officially hosted mail servers under Government portal www.pakistan.gov.pk and other mail servers exclusively hosted within Pakistan be used for official correspondence.

3. Forwarded for information / necessary, please.
