F. No. 787/NDMA/AS/DPD/2024

Islamabad the 27th June 2024

Subject: National Disasters Risks & Alerts Communication - NDMA Mobile App

1. Context

- a. Being one of the *most climate change vulnerable country*, Pakistan has transformed *from reactive to proactive* disasters management. D/CC
- b. *National Emergencies Operations Centre (NEOC)*, conceptualized and built by NDMA is delivering trajectories of Pakistan's futuristic exposures to disasters. J/S/110
- c. An exclusive mobile application has been developed by team NDMA, which can be downloaded as '*Pak NDMA Disaster Alert*' on *Android & IOS*. S.O.D/33
- d. It will generate alerts and update guidance for all organizations and individual responders, in national & provincial languages with audio, video formats guidelines and suggestions. CCD-24

2. Salient Features. *Pak NDMA Disaster Alert* app aims at ensuring effective community engagement and timely risk communication to the masses. Main features include:-

- a. Alerts will enable the people and responders to promptly implement the disaster management plans keeping them ahead of crises before they strike. Geo-tagged alerts will outline likely impacts and suggested actions to be taken at individual and community level.
- b. Hazard Projections will depict 8-10 months futuristic trajectories of approaching calamities empowering the people and responders to strategize and plan safety measures in advance.
- c. Guidelines offer tips to safeguard against the impacts and advisories for responders and affected communities.
- d. Public Service Messages provide audio visual details of different disaster situations. This feature aims at educating the masses on effectively responding to different emergency situations.
